Emotion as Promotion Rick Valicenti 2005 From innovative fonts and commercial logos to products and artists' books, the work of graphic design collective Thirst is unmistakable: dazzling in form, intellectually challenging, incorporating Real Human Presence, just over the edge of the Discomfort Zone. The firm is known not only for fusions of text and image but for the emotion and strength that pervade the work. Thirst hallmarks include striking color photographs, creative computer manipulation, the use of new media, and challenges offered to the reader/viewer (and sometimes to the client as well). The first monograph on the design group, Emotion as Promotion is an exuberant manifesto, a collective autobiography, and a brutally honest heart-to-heart with the next generation of design. It showcases work known (designs for Gilbert Paper, Gary Fisher Mountain Bikes, Wired magazine, and Absolut vodka), unknown (unimplemented identities for iXL and U.S. Robotics), and notorious (the "Just My Type" nude alphabet, the Want photo shoot for RayGun). Thirst principal Rick Valicenti and his colleagues tell the tales of each project, offering sometimes funny, sometimes wry assessments of the client, the end result, and all stages in between.

So how do authors get their books into the hands of readers all year round without breaking the bank? This book teaches authors how to jumpstart their careers by advertising in long-term, affordable ways within the safety and strength of a promotional group. These groups of authors accomplish together what few can do alone: they share the cost of long-term promotion and market their releases individually and as a group. No other book currently on the market comprehensively explains how authors can set up a promotion-specific group. The innovative plans for group and individual promotion included are both flexible and affordable for nearly any budget. Promotion and Tenure Confidential David D. Perlmutter 2010-11-15 "Sitting down with a young and brilliant mathematician, I asked what he thought were his biggest problems in working toward tenure. Instead of describing difficulties with his equations or his software programs, he lamented that (a) his graduate assistant wasn't completing his tasks on time, (b) his department chair didn't seem to care if junior faculty obtained grants, and (c) a senior professor kept glaring at him in faculty meetings. He knew he could handle the intellectual side of being an academic—but what about the people side? 'Why didn't they offer "Being a Professor 101" in graduate school?' he wondered." *Promotion and Tenure Confidential* provides that course in an astute and practical book, which shows that P&T is not just about research, teaching, and service but also about human relations and political good sense. Drawing on research and extensive interviews with junior and senior faculty across many institutions, David D. Perlmutter provides clear-sighted guidance on planning and managing an academic career, from graduate school to tenure and beyond. Topics include: making the transformation from student and protégé to teacher and mentor; seeking out and holding onto lifelong allies; how to manage your online reputation and avoid "death by Google"; what to say and what not to say to deans and department chairs; how meeting deadlines wins points with everyone in your life; how, when, and to whom to say "no"; when and how to look for a new job when you have a job; how (and whom) to ask for letters of recommendation; what to do if you know you're not going to get tenure
